Vilnius International Short Film Festival is one of the biggest short film festivals in the Baltic countries, presenting the newest and best short films from all around the world. Established in 2006, the festival has become a unique platform in Lithuania, not only screening European but also global professional short films made by the upcoming generation of talented filmmakers.

Each year Vilnius International Short Film Festival holds the International Competition, which involves up to 35 most acknowledged short films from the last two years. There is also a National Competition, which presents a condensed selection of Lithuanian short films. Films are judged and awarded by the International Jury. The festival also features several special non-competition programmes – retrospectives, kids programme and special theme-based short film selections.

The 16th edition of the Vilnius International Short Film Festival will take place on 18–24 January 2023 as a hybrid event: films will be screened on-site in Vilnius and other Lithuanian cities as well as on local VoD platforms (geo-blocked to Lithuanian territory).
