

EDITION 1

The VideoPitches have to be submitted before December 31 2021, through ShortFilmDepot only and the start of online application is August 1st.

The on-line screening of the most inspiring video pitches will be Saturday January the 15th 2022.

The Video Pitch Contest will highlight self-made video pitches supporting the 17 SDGs in the form of advocacies to support the SDGs and a Jury will select the most inspiring ones.

Those ones will be online screened within a given community of people who created their own video on the same SDG during the Video Pitch Festival, excluding cutaways and music.

The videos should be subtitled in English

The Video Pitch Contest don't have any specific regulations except that videos have to be recorded on your own or with someone's help, face to Camera and duration should be less than 5 minutes.

We are more focused on the content versus the Video Quality.

No cash prizes will be delivered, only honorific awards will be attributed 1 per SDGs.
